Yogyakarta

I am a sixth-semester student majoring in Informatics at the Indonesian Islamic University (UII). My aspiration is to become a specialist in the IT field, particularly in areas such as Cloud Computing and DevOps. I have mastered various relevant technologies and tools, including PHP, Laravel, JavaScript and NodeJS , and have practical experience with the Google Cloud platform, DevOps tools like Docker and Terraform, and the Ubuntu Server operating system.

Work Experiences

Laboratorium Terpadu Informatika UII - Sleman, Indonesia

Sep 2023 - Present

Laboratory Assistant of Web Development

- Had successfully organized, demonstrated, and executed good laboratory works as a respectable mentor and trustworthy assistant for the subject of web-based application development, and Information Systems Development
- Had successfully assisted over 200 students from five different classes, providing them with guidance and support to enhance their academic achievements
- participated in 2 skill improvement programs (micro teaching and database management) to enhance my capabilities in teaching and learning

Javan Cipta Solusi - Sleman, Indonesia
